

Mars LED 200BSW

Voltage: AC 110-220V, 50-60HZ

Power: 250W

Light source: 1 x 180W white light LED bulb

Auxiliary Light: 22 x 0.2W LEDs

Average lifespan of LED beads: 10,000 hours

Beam angle: 2.8°

Lens: 80MM aperture

Color temperature: 8000K

Prism: 1 five-sided prism

Atomization: 1 atomization

Color Wheel: 11 Colors + White Light

Fixed Pattern Disc: 12 patterns + white light (rotation hole 12MM)

Rotating pattern disc: 7 black base wave patterns + white light

Channel: 18CH/19CH

Stroboscope: 1-20Hz

Control Modes: Voice Control, Master-Slave, Autonomous, DMX

X-axis: 540° precision 2.11° /step, fine adjustment precision 0.008°

Y-axis: 220° precision of 1.05 degrees/step, fine-tuning precision of 0.004°

Data connection: Three-pin XLR input/output

Display: 1.8-inch LCD screen

Protection Class: IP20

Working environment: -10° C to +40° C

Auto Focus

Mars 251 Three-in-One, One Installation: 50*28*35

Gross weight: 11kg
